

Dear Partners,

Greeting from Hokkaido University, Japan!

We are glad to inform you that Hokkaido Summer Institute (HSI) 2022 information was released on the website in mid-February.

More than 160 world-leading researchers from overseas will provide lectures with the university's faculty members for five months during the summer for the HSI, which was established in 2016 and more than 1,000 international students have participated so far. From 2020, we also accept applications from non-students.

There will be over 270 courses (around 220 graduate courses and around 50 undergraduate courses) from June 1st to October 31st, 2022.

Each course is worth 1 academic credit. Most of the courses run for one or two weeks.

Students can tailor their own summer program by combining courses according to their major and interests.

In 2022, HSI will launch eHSI which provides more options of online courses.

Applicants will be able to choose from 100 online courses.

Most of the courses offered online will also be available face-to-face at HU.

Participants may come to Japan and take face-to-face classes if the situations allow.

Tuition fee will be waived for students who enroll in the program as exchange students from HU's partner institutions

with which HU has concluded a memorandum of understanding on mutual tuition waivers.

All students from the partner institutions can take this tuition waiver and the number of HSI students is not included in the exchange quota.

We would be grateful if you could share our websites and the attached posters with prospective applicants.

Courses

Face-to-face: 170

Online: 100

Application period

1st: March 7 (Mon.) – 16 (Wed.), 2022 (All courses)

2nd: June 1 (Wed.) – 7 (Tue), 2022 (Courses offered in the latter half of the program)

Your students are required to apply through the HSI application system.
