

## ANSO Scholarship Programme for MSc. & PhDs

Dear Students,

Chinese Academy of Sciences (CAS) has announced new scholarships programme and the information regarding the programme can be acquired through the below link.

<https://mp.weixin.qq.com/s/XR96MLJYOm68E8ICvGRfWQ>

Here is a brief introduction regarding the process of application as mentioned by the Chinese Academy of Science.

### **"UCAS Online admission briefing for 2022 incoming international students"**

- CAS send the list of Supervisors from CAS who are interested in receiving SL students' application, including Supervisors' research interest, accepting Master's or Ph.D. application, etc.
- Based on this list, please share it within the university, collect students' CVs and their interested Supervisors, and then send all students' CVs to CAS in order that Supervisors select suitable students.
- After selection, CAS will send a shortlist of students and then the supervisor can interview the student through video and then decide who will be accepted for application.
- Therefore we will send you the list of supervisors with this email, and we are planning to organize such an admission briefing next week

Herewith, sending the application guidelines and the list of prospective supervisors. Please find the attachments. Please be kind enough to share this information with the interested students as this will be a good opportunity for the students who are planning to apply for a Master's or Ph.D.
